Height Extenders**

**Shown with Optional  
Height Extenders**

### How Does It Work? **MIRRORS!!**

It's Like Having Thousands of  
Camo Patterns in One Blind!

**Design Eliminates Any  
Unwanted Sun Reflections  
& Animal Movement!**

GhostBlind's® design reflects the sun down to the ground.

### **JUST SUPPOSE:**

- >> You could get closer to game than you ever imagined,
- >> You could eliminate the need for multiple blinds,
- >> You could relocate quickly and effectively if the wind shifted or you got busted,
- >> You no longer need to brush in your blind or leave it sit for weeks
- >> You could actually have one blind that perfectly blended with every environment, rather than several blinds that don't match any environment
